Negative decision in the asylum procedure

BRING BACK OUR NEIGHBOURS
Against the Saxonian deportation policy

The federal offices decision will be sent to you in writing in a yellow letter. If you have a legal adviser, your lawyer will receive the letters.

If you get a positive answer, you can stay – you will have to do now a lot of other bureaucratic stuff and may need some help from migration counselling offices, but you have a residency for a certain period in Germany.

There are 3 types of refusals:

Inadmissible – “Unzulässig”

In the case of Dublin rejections and a second asylum application “Folgeantrag”: You get more information about the Dublin-procedure here:

bonlink.de/flyer-en-dublin

A rejection as inadmissible means that your reasons for seeking asylum are not thoroughly examined and that Germany does not consider your asylum application necessary.

You have 7 days to file a complaint (“Klage”)

and an urgent application (“Eilantrag”). The complaint does not protect you from deportation. You must therefore also submit an urgent application for protection against deportation.

Simply unfounded – “abgelehnt”

The decision from the BAMF states: Your asylum application is rejected. You have 2 weeks for a legal complaint (“Klage”). This complaint protects you from deportation until a decision is made by the court. That’s why you don’t need an urgent application (“Eilantrag”).

Manifestly unfounded – “Offensichtlich unbegründet”

- You have 7 days to file a complaint (“Klage”) and an urgent application (“Eilantrag”). The complaint does not protect you from deportation. You must therefore also submit an urgent application for protection against deportation.

Free advice on the asylum procedure in Saxony

You can find addresses for good counselling centres in Saxony on our **contact overview** bonlink.de/page-en-contacts.

If you cannot get help there, the counsellors will recommend specialised lawyers. Please decide on a counselling centre or inform a new counselling centre who has helped you with what so far. Unfortunately, you sometimes have to wait a few days or weeks for an appointment. So don’t wait too long if you need counselling, but make an

appointment quickly. If there is a deadline for filing a complaint, it is best to tell or write to the counselling centre straight away. Please take all important documents (e.g. language course certificate, tenancy agreement, employment contract, medical reports) and all letters from German authorities with you.

If the foreigners authority (Ausländerbehörde) wants to deport you, they can take you into custody for this. For a deportation you can be detained for a few days or up to 6 months. This deportation detention is in Dresden. Even without having committed a crime, you can be imprisoned. The police can pick you up at home or at an authority appointment. Then you will be taken to the court for a hearing. It is important that lawyers or a trusted person are present at the hearing. You must ask for this at the beginning of the hearing. In detention pending deportation, you have the right to counseling from lawyers and the contact group for detention pending deportation in Dresden. You can talk to the social services and request both consultations. Further information and contact:

How big is the risk?

If you have a simple toleration, a *Duldung*, you can be deported and before that you can be detained. Even if you have been here for many years or have applied for residence, the foreigners authority can deport you and take you into custody beforehand.

- if deportations have already failed because you were not at home or missed appointments at the foreigners authority;
- if you have applied for asylum in several EU countries;
- if you have resisted deportation;
- if the Immigration Office knows that you have given a false passport or a false name;
- if you have moved away and have not registered with the Immigration Office or the Social Office for several months.

If you are arrested, insist that they are informed and come to the court hearing. The immigration authorities want to convince the court that you want to flee from your deportation. They write to the court with evidence that you are hiding from the authorities. The authority calls this "Untertauchen" / "absconding". In our Dublin flyer bbonlink.de/flyer-en-dublin you can find more information on the topic of "Untertauchen" / "absconding".

The hearing before the court

You will be brought to the court by the police for a hearing. The hearing is not about your reasons for asylum! It is about whether the court believes you will hide from deportation. Assure the court that you are willing to report regularly and that you will not run away from deportation. If you are not taken into custody, go urgently to a counseling center or to a lawyer.

as soon as possible so that they can help you.

What happens in the deportation detention centre?

You will be examined by a doctor to see if you are healthy enough to be detained and deported. If you are ill and need medication, tell the doctor. You can meet a lawyer, the deportation detention contact group, counsellors for a (second) asylum procedure, a psychologist or a counsellor. The social services must help you with this. You must hand over all your belongings and cash. If you have more than €200 with you, they will keep the money even after deportation. You also have to hand over your smartphone. However, you can apply to have it for a short time so that you can write down contacts and phone numbers or passwords for email and Facebook and send photos or documents on your smartphone to your lawyer or lawyer supporter. You can use the (low) internet for one hour a day. You can also borrow a mobile phone and use it to make calls. Contact supporters, your lawyer or the deportation detention contact group

Here you can find **more information on what you can do to prevent a deportation [bringbackournighbours.de/](https://www.bbonlink.de/page-en-a-deportation-bringbackournighbours.de/)**

Welcome to Europe!
[w2eu.info](https://www.w2eu.info)

Every case is different. You need the help of an **advice centre [bbonlink.de/page-en-contacts](https://www.bbonlink.de/page-en-contacts)** or a lawyer who is well versed in migration law. They need to examine your case carefully to see what your chances are. Important aspects that make it easier to find a way for you to stay in Germany are:
• You are unable to travel due to health reasons.
• The EU country you are supposed to return to has so-called "systemic deficits". This means that there are not the most basic necessities of life, such as a place to live, a bed or soap.
Here you find more information in different languages about the "Dublin-System":
[bbonlink.de/dublin](https://www.bbonlink.de/dublin)

Here you find contacts and information in different languages about other European countries that can help you if you are deported because of the "Dublin procedure".

If you hide and the authorities find out, they can extend the time for your deportation by 1 year. Germany then has 18 months to deport you.
If Germany considers another EU member state to be responsible for your asylum procedure, your asylum application is "inadmissible" ["unzulässig"]. It means that

In the beginning of your asylum procedure it will be assessed whether Germany is responsible for examining your asylum application or another European state is responsible. This is called the Dublin regulation.
Unfortunately you cannot decide which state examines your asylum application. This is why it needs to be clarified when and where you arrived in the European Union (EU),
• whether you have family members in other member states of the EU,
• whether you already applied for asylum in another member state,
• whether you arrived in Germany with visa from another member state,
• or whether you had your fingerprint taken in another member state.

If you hide and the authorities find out, they can extend the time for your deportation by 1 year. Germany then has 18 months to deport you. The authorities also call hiding "Untertauchen" / "absconding".
You should therefore collect evidence yourself that you are not hiding, but are only absent by chance or for important reasons. If you miss an appointment with a public authority, you must cancel your appointment in advance. You need an important reason for this. A sick note from your doctor is best. Send the sick note with an email to the immigration office shortly before your appointment.
If the police wanted to pick you up for deportation but couldn't find you, you should prove that you are not hiding. To do this, write to your local immigration office and the BAMF (for Dublin deportations) or the Central Immigration Office (for all other deportations) explaining the reason why you were not there. You can write an email or send a fax.

Duldung

Duldung (tolerated stay permit)

BRING BACK OUR NEIGHBOURS
Against the Saxonian deportation policy

Was does tolerated stay permit (Duldung) mean?

Duldung is a bad status. Many rights are denied, for example you cannot decide for yourself where you live.

But it does not always mean that deportation is imminent. Some people live in Germany for many years with this tolerated status.

The actual risk of deportation is individual. Every case is different. You need the help of an **advice centre [bbonlink.de/page-en-contacts](https://www.bbonlink.de/page-en-contacts)** or a lawyer who is well versed in migration law. They need to examine your case carefully to see what your chances are.

However, a tolerated stay / Duldung causes many problems:

You are not allowed to re-enter Germany with a tolerated stay permit. So be careful when travelling abroad.

A *Duldung* always has a time limit, often 3 or 6 months. But you can also be deported

within this period without warning. The danger is great if the tolerated stay permit states: 'Expires regardless of validity on the day of deportation' or a similar text. Many *Duldungen* contain further prohibitions:

- "Zur Wohnsitznahme verpflichtet" = "Obligated to take up residence in...": This means that you must live at this address. If you want to move, you must first submit an application to the immigration authorities, who must authorise your move. This often takes a long time and you usually have to have a job. In the meantime, you may be able to rent a second flat or room through a friend or acquaintance. However, you must officially live in the flat that is on your tolerated stay permit.
- "Beschäftigung nicht gestattet" = "Employment not permitted": This means you are not allowed to work.

• "Beschäftigung nur mit Erlaubnis gestattet" = "Employment only permitted with authorisation": This means that you and your future employer must submit an application to the foreigners authority.

You can find more information on work permits here:

[bbonlink.de/workpermit](https://www.bbonlink.de/workpermit)

You can legally defend yourself against the bans and submit applications to the foreigners authority to have these bans cancelled. It is more difficult to find a job or a flat with a *Duldung*. This is because landlords or employers are not familiar with the rules at the foreigners authority and are unsure because *Duldungen* are only valid for a few months. It often helps if your family, friends and supporters help you to find a flat or a job through their networks.

Here you can find further important information on your rights and obligations if you get a *Duldung*:

You can find this information in the web version

A *Duldung* is not a substitute for a passport. Therefore it is no proof of your identity. This is why there can sometimes be problems if you want to get a driving licence or if you want to buy a SIM card or open a bank account.

Passport obligation

If you have a *Duldung* and have not yet presented a passport, the foreigners authority will definitely want to see your passport. They have many ways of forcing you to do this, for example they can ban you from working or reduce your social benefits if you don't get a passport.

You have a so-called 'duty to co-operate', which means you have to obtain a passport and prove your identity.

If you try to obtain a passport, write down exactly what you have done: Visited embassy, called family etc.

Ongoing deportation

BRING BACK OUR NEIGHBOURS

Against the Saxonian deportation policy

For many, it's a shock: the police are there. There may be a lot of police officers and they may also be very unfriendly. They don't understand how bad the situation is for you. They also don't have any interpreters with them. It's often difficult to talk to the police and you don't understand what they want. In this flyer, you'll find more information about the **police and deportations** bbonlink.de/flyer-en-police

Even if it's difficult, try to stay calm. The police officers could also use force, tie you up or separate families if they think you are aggressive.

Who is the police officer in charge? Talk to him calmly. The following is particularly important:

- Is a family member not at home? How will the police prevent the family from being separated?
- Is someone ill or pregnant? Is there any evidence of this? Ask the police to call a doctor again to check their 'fitness to travel'!

- Does anyone in the family have a residence permit or a tolerated stay permit for education or employment? Is an asylum application still open?
- Is someone not feeling well, for example acute panic? Then ask for an emergency doctor to be called.

Try to gather information:

- Are you being deported by bus or, as is usually the case, by plane?
- Which airport do you fly from and when does the flight depart?
- Will you be taken to a police station beforehand?
- What is the destination of the deportation? In which city will you arrive?

You are allowed to pack 20kg per person. Don't forget the most important things: medication, documents (children's birth certificates, medical documents, passports etc.), clothes for the first few days ...

The police may take cash from you. You are supposed to use it to pay part of the costs

of your deportation yourself. They may also search your belongings for cash. If you are threatened with deportation, it is best to take your money to a trusted person. They can use it to pay a lawyer or send you the money after your deportation. The police must give you a receipt when they take something from you. With this receipt, a supporter or a lawyer can check whether the police were authorised to do so.

The police often take your phone away from you. It's best if you can hide a second phone somewhere. If you can, secretly make audio or video recordings. Insist that you are allowed to make at least one phone call before they take the phone away: Call your trusted person or your lawyer. If possible, a supporter should come and help you with the deportation. Or they can make other calls for you, such as calling your lawyer. You can also call acquaintances or friends at your deportation destination so that they can pick you up and organise a place for you to sleep.

You or your supporter should also contact the **Deportation Monitoring Centre** bbonlink.de/page-en-contacts. Inform them about your situation and ask how they can support you.

The police will then take the people to the police station. They are then taken to the airport or onto a bus to be deported. Deportation often takes several hours. Your supporters or your lawyer can use this time on your behalf to legally prevent your deportation. But they now have a lot to do, have to act quickly and be available on the phone! Perhaps they can submit a follow-up asylum application to the BAMF or an application for tolerated stay to the foreigners authority and an urgent application against the deportation to the administrative court.

If you don't see any legal chances, you can also prevent the deportation in another way. But beware: the police often react harshly and violently!

- You can try to defend yourself and run away

- Friends can block the police for you
- You can refuse to sit down on the plane
- 📧 bbonlink.de/airplane
- 📄 bbonlink.de/resistance

Think about what is better for you and your family: would you rather survive the deportation as quickly as possible and experience as little violence as possible? Or do you want to try everything you can to gain time to have one last chance to prevent the deportation? Please note: If you put up a strong defence and thus prevent deportation, you may end up in **<p>detention pending deportation</p>** bbonlink.de/flyer-en-detention and be separated from your family.

BRING BACK OUR NEIGHBOURS
Against the Saxonian deportation policy

The police can pick you up for deportation in many places: at home, during official appointments, at work, or on the street. They may also go to family or friends if they know the address. Any address known to authorities (social welfare office, immigration office, BAMF, town hall) can be risky. The police can come at any time, usually very early in the morning. Often, deportation can no longer be stopped — you may have only a few hours before being put on a plane.

In this flyer, you'll find information about what can be done during an **ongoing deportation** [bbronk.de/flyer-en-ongoing-deportation](https://www.bronk.de/flyer-en-ongoing-deportation)

Police outside the flat?

Stay calm and keep the lights off. Don't open the door!

If the police can't see that you're there, they'll have to leave.

You can also hide in a flatmate's room and lock the door.

Then inform your lawyer or supporters as soon as possible. You need urgent counselling. If the police try once, they often come back soon and try again!

Police in the accommodation / camp?

Preparation counts!

Find out who has received a negative decision from the BAMF and is at risk of deportation.

Where are good hiding places in the camp that you can get to quickly?

Which social workers or security staff are good and can help? Talk to them!

Keep up to date with deportation dates! This way you know when the police might enter the camp. Information is available on Instagram, Facebook or Telegram, for example:

Deportation Alarm
[de.deportationwatch.net/en](https://www.deportationwatch.net/en)
Facebook: @Deportation-Alarm
Instagram: @deport_alarm
Telegram: @deportation_alarm

When the police enter the camp, those who are threatened with deportation should hide. Those who are not threatened can offer protection.

You should organise this in advance. Talk to the people in your accommodation. Many are afraid or worried about their own asylum procedure, but together you can prevent deportations: People who are not at risk of deportation can hide others. Many people could swap rooms. You can gather at the entrance during deportations to cause a disturbance and distract the police. You can warn each other with whistles.

Inform others about deportations and the behaviour of the police! Try to secretly make videos or audio recordings. Observe closely and write everything down afterwards.

The police pick you up from work:

You can explain to your colleagues that the police are not arresting you for a criminal offence, but that the police are often so forceful when it comes to deportations. If your work can be a reason for a right to

stay, ask your colleagues to email your employment contract, a current payslip or a letter of support to your lawyer or a supporter.

The police will pick you up from the authorities or at a roadside

checkpoint:

If the risk of deportation is high, always take a friend or a supporter with you to an appointment and do not go alone. They can check for you outside the immigration office and in the clerk's room to see if the police are there and warn you secretly.

If you cannot go to an appointment at an authority, you must cancel it. The best way to do this is to write an email to the authority on the day of the appointment.

You should have an important reason (e.g. illness) and send proof (e.g. sick note from the doctor). If you miss an appointment without an excuse, the authorities can report you as a "fugitive" and put you on the wanted list. This means that the police can

Vorbereitung auf eine Abschiebung

Preparing for deportation

BRING BACK OUR NEIGHBOURS
Against the Saxonian deportation policy

Even if it causes **anxiety and stress** bbonlink.de/flyer-en-stress, you can prepare yourself for a possible deportation. The police may come at night, in which case everything has to happen very quickly. This information can help you in the event of an ongoing deportation and, at best, prevent it: Have the most important things ready: Medication, documents (children's birth certificates, medical documents, passports, etc.) Clarify with a trusted person that you can call them at any time if you are in danger. Write the name and telephone number of this person and your lawyer in a clearly visible place and hang the note next to the door. If you are deported, this trusted person can also send you things that you were unable to take with you or have forgotten. Do you know many people who could come to you quickly in case of danger and block your deportation? If so, plan together who you will inform. This person can then pass

on the information to everyone else (telephone chain).

Often you will not find enough people to block the deportation. Nevertheless, you can contact individual people so that they come and support you and act as witnesses.

Do you have proof that you or your family should not be deported? Have it ready so that you can show it quickly. For example, medical reports, court judgements, maternity passports, letters from authorities or lawyers.

Keep in regular contact with your lawyer and supporters. Make sure that they have the latest documents and information from you that can help you with a stay, e.g. employment contract, medical documents, etc.

If you like, sign the **templates** bbonlink.de/page-en-forms from this emergency kit and give them to someone you trust. They can then react quickly in the event of deportation if you run out of time.

There is further **information for supporters** bbonlink.de/kit-en-support, where you can find **contacts** bbonlink.de/page-en-contacts to authorities and courts or politicians. They can call supporters for you if you are deported.

Talk to family, friends or acquaintances about how they can and want to support you and show them the information. Deportations often happen secretly. Most people in Saxony know nothing about it. You can publicise your impending deportation with the help of supporters. Sometimes this can also prevent an ongoing deportation. But it is also important that more people understand how bad deportations are.

Here are **tips for protesting and publicising deportations** bbonlink.de/page-en-publicity.

Think about what information you want to share publicly and discuss this with your supporters:

For example, are they allowed to publish this information?

- How exactly did the deportation take place?
- What was your life like in Germany? (Work, school, voluntary work, health, criminal offences...)
- Why did you have to flee? What are you afraid of when you return?
- Do you want to make your name or photos, letters, videos of yourself public or would you rather not?

When is my deportation imminent?

In order to prevent deportation, you must first know whether deportation is imminent and how great the risk is:

- A tolerated stay [Duldung] usually means risk of deportation.
- These tolerated stays state: 'Expires on the day of deportation regardless of validity'
- It is particularly dangerous if a [Duldung] is only valid for 3 months.
- A tolerated stay for employment [Beschäftigungsduldung] or training [Ausbildungsduldung] are not dangerous.
- Even if you have a "certificate of temporary residence" [Bescheinigung über den vorübergehenden Aufenthalt] = BÜVA, the danger is great. A BÜVA is a DIN A4 sheet with a photo that you receive from the immigration office as an "ID proof", which is often only valid for 1 month and poses a great risk of deportation. Please go to a counselling centre as soon as possible if you receive a BÜVA instead of a [Duldung].
- Deportations happen in prison, in camps or at home. Sometimes people are also picked up from their workplace or from hospital.
- You can also be deported during appointments at the authorities. If it is an unusual appointment, you should be careful and preferably cancel the appointment.
- You can also be deported if you have not handed in your passport.
- Even if you have submitted an application for residence, you can be deported before the foreigners authority has decided on your application. You can prevent this if you also submit an urgent application or request a promise from the regional directorate/central foreigners authority that they will not deport you. Lawyers or advice centres can help with this.

You can hide, and sleep somewhere else. But you should still keep appointments with authorities – or cancel them with good reason, for example because you are sick. Do you want to know if the police have been to your house when you are not at home? Trusted neighbours can inform you if you talk to them about it. If you live alone, you can also stick a small piece of tedder or a toothpick firmly in the crack of the door when you leave the flat. When you come back, you can then check whether someone has opened the door.

W2eu has written a brochure with important tips on how to prevent deportations:

There is also the possibility of church asylum. This means that you live in a church or a parsonage. The police knows where you are, but they are not allowed to pick you up. Most of the time this is only possible if you are deported to another EU country because of the Dublin regulation. And ideally you already have personal contact with church members or pastors. Here you can find first information:

If you left your country due to war or persecution, in Germany you have the right for asylum.

You have to apply for asylum. The Federal Office for Migration and Refugees in German **Bundesamt für Migration und Flüchtlinge**, known as BAMF, will decide about your application.

In this video you get short information about the right for asylum in Germany in different languages:

[bbonlink.de/videohearing](#)

If you have applied for asylum, you will receive a "Aufenthalts-Gestattung", a temporary residence permit (also known as an "Ausweis").

Hearing / interview

If Germany is responsible for your asylum application, the hearing or also called interview will take place at the BAMF. This is your chance to reason your request for asylum.

The hearing is a very important and decisive appointment.

Please be well prepared for your interview. It is very important! You can write down your experiences in a chronological order and bring also some proofs, if you have some.

You can also ask for a preparation meeting in a refugee consultation center.

Here you find more detailed information in different languages on the asylum procedure, your rights, the hearing and your access to education and work:

Accommodation

At the beginning of your asylum procedure, you will live in reception center, called "Erstaufnahme". It is possible that you stay there until a decision has been made about your application, or you will be moved to another accommodation.

Unfortunately you cannot decide where you want to live in Germany. You will be sent to a specific city or village and have to live there

in an apartment or another camp. You can apply for a transfer from Erstaufnahmecamp into another accommodation. You can also apply for a transfer from one city to another city. There are only limited reasons when you have the right to move.

Here you find more information in german and english how to get a transfer from Erstaufnahme-Camp:

[bbonlink.de/transfer](#)

Reasons for your application might be:

- a job that you can start in another city
 - Family members with whom you would like to live in another city
 - practicing your religion
 - caring for family members
 - start a course of study or education
- Remember that you have to prove every-thing and explain it well.

Letters

If you move, you must give your new address to the BAMF, the Immigration authority, and

possibly to the court. This is very important because letters will always be sent to the last address that you told the authorities. Please find help in understanding letters from authorities very soon, because there are important information in it and short deadlines for you to react.

Documents

To prove your identity to the authorities in Germany, it is better to present any official document you have. Your passport is the best document. The law states that you must give it to the immigration office if you have it. Unfortunately, passports are often lost or stolen when fleeing. You can explain this to the BAMF or the immigration office. A passport also makes deportation easier. However, the authorities usually need a passport for a residence permit and a work permit.

Every case is different. You need the help of an **advice centre [bbonlink.de/page-en-contacts](#)** or a lawyer who is well versed in

Protection from deportation due to serious illness Section 60 (7) of the Residence Act

if you are very seriously physically or mentally ill, deportation is a great danger to your life. That is why you need protection from deportation.

The immigration authorities believe that you are healthy. You have to prove that you are ill. But the immigration authorities do not accept many proofs of your illness. A special medical certificate is required for this. This takes time. Especially in the case of mental illnesses, you must also be aware of long waiting times. It is even more difficult to get

Anxiety, anger or insomnia are normal reactions of your body when there is a risk of deportation. This is because the risk of deportation means a great deal of stress.

The cause of the risk of deportation is racist laws and authorities. We cannot solve these problems with these tips. But perhaps some of the tips can help you to calm yourself down if you are panicking. Perhaps these tips can help you feel stronger and continue to fight against deportations.

If you are very scared and panicked or if you think you are beside yourself, outside the world, then it helps if you can taste, smell or feel something intense. This can bring you back from a shock.

For example, you can:

- Taste: bite into a lemon or chili or chew strong chewing gum
- Smell: hold strong odours such as lemon, lavender, patchouli or a pleasant scent under your nose
- Feel: stroke your skin with a massage ball, a brush or something rough. Or

you can flick a rubber band on your wrist. You can run cold water over your hands or face or take a hot-cold shower.

- Listen: Listen to your favourite song or relaxing sounds from the sea, wind, rain or forest.

It is important that these are strategies that are helpful in the short term and not harmful in the long term. It is about getting out of a state of fear and panic in the moment so that you can then become active again and do something about the risk of deportation.

The fear of deportation sometimes brings back bad memories of flight, war and persecution. The fear of deportation itself can be traumatising. Professional psychological therapy is then a great help for many people. But it is particularly difficult for refugees without residency to get psychotherapy. In Saxony, there are the PSZ, psychosocial counselling centres, which can

sometimes help a little faster and have interpreters.

PSZ Sachsen **psz-sachsen.de**

Here, too, you often have to wait a few weeks.

That's why you'll find here lots of multi-lingual information on mental illness, trauma and panic and what you can do yourself to feel better:

Don't stay alone with your anxiety: meet up with other people, talk about your feelings, ask for help. Get out and move (do sport, run, go for a walk) to combat the paralysing fear. Many people also find it helpful to become active and join others in campaigning against deportation. You can do something!
