The hearing before the court

You will be brought to the court by the police for a hearing. The hearing is not about your reasons for asylum! It is about whether the court believes you will hide from deportation. Assure the court that you are willing to report regularly and that you will not run away from deportation. If you are not taken into custody, go urgently to a counseling center or to a lawyer.

In the detention center for deportees

- You will be examined by a doctor to see if you are healthy enough for detention and deportation. If you are sick and need medication, tell the doctor.
- You can meet with a lawyer, the detention contact group, a psychologist, or a counselor. Talk to social services or an official about this.

How big is the risk?

If you have a simple toleration, you can be deported and before that you can be detained.

Even if you have been here for many years or have applied for residence, the foreigners authority can deport you and take you into custody beforehand.

The danger is big,

- If deportations have already failed because you were not at home or missed appointments at the foreigners authority.
- If you have applied for asylum in several EU countries.
- If you have resisted deportation.
- If the Immigration Office knows that you have given a false passport or a false name.

- If you have moved away and have not registered with the Immigration Office or the Social Office for several months.
- If you are a man: currently (2022) no women and children are detained in Saxony.
- If you have committed crimes - even though this is not a prerequisite for deportation detention.
